# UNIVERSITY CUP

The Entelect Challenge University Cup is a one-day hackathon where teams of students from various universities around the country are challenged to solve a coding problem.

We have created this unique initiative specifically for students as we noticed that there is a lot of interest in the main challenge but time commitments can be problematic given academic schedules. We hope to give our future technology leaders a chance to flex their brain muscles and participate in something fun and rewarding!

## Prizes

- Each member of the winning team will win a gaming laptop and some interesting gadgets for their University's lab.
- The winning team will receive tickets to Comic Con Africa to attend the main Entelect Challenge final event.

## The Event

- The University Cup will take place on Saturday, 1 August between 08:00 and 16:00.
- This year teams will participate remotely. We are in the process of making this easier for students to and have provided some thought leadership on the tools available for your teams to use [here](#).
- Teams will view the problem and submit their solutions online at <https://challenge.entelect.co.za>

## How to Enter

- Log into the Entelect Challenge player portal: <https://challenge.entelect.co.za/portal>
- Register yourself for the University Cup tournament.
- Team registrations on the portal are open from 8<sup>th</sup> June 2020.
- There will be multiple teams per university.
- A practice problem will be made available closer to the date.

## Take Note

- The University Cup is open to undergraduate students as well as full time Honours students. South African students only.
- The University Cup is team based. Each team must consist of no less than two, and no more than three individuals.
- Submissions will be done online via the Entelect Challenge player portal.
- The Entelect Challenge team will publish a practice problem approximately one month before the University Cup event.
- Please see the Terms and Conditions here: <https://challenge.entelect.co.za/university>

## 2021 graduate applications are open at Entelect

Please also note that our graduate applications for all final year, honours, and master students for Computer Science, Information Technology and Engineering are open and you can go and directly apply at:

<https://culture.entelect.co.za/position/graduate/>
